

## **Thoracic Surgical Oncology Fellowship**

Roswell Park Cancer Institute, a member of the prestigious National Comprehensive Cancer Network and the only upstate New York facility to hold the National Cancer Center designation of “comprehensive cancer center,” is accepting applications for its Thoracic Surgery Oncology Fellowship for the 7/2013 – 6/2014 academic year. This fellowship will provide a concentrated experience to the general thoracic surgeon in the area of advanced thoracoscopic and other minimally invasive techniques as well as immersion in a center devoted to oncologic care. Candidates must have completed a cardiothoracic residency or similar training and have the credentials to attain New York State licensure.

Elective rotations include focused clinical thoracic experiences in radiation oncology, medical oncology, imaging, pulmonary medicine, pathology or interventional bronchoscopy. Participation in approved personal or ongoing departmental laboratory or clinical research projects is required. Innovative minimally invasive surgical projects (e.g., robotic surgery) are also available.

Those completing this training program will be prepared to assume a prominent role in a center devoted to advanced multidisciplinary thoracic oncologic care including academic health care environments.

Interested candidates should send curriculum vitae to:

**Elisabeth Dexter, MD**  
**Director of Education**  
**Department of Thoracic Surgery Oncology**  
**Roswell Park Cancer Institute**  
**Elm & Carlton Streets**  
**Buffalo, NY 14263**  
**Elisabeth.Dexter@RoswellPark.org**

**OR**

**Nancy Sikora**  
**Education Coordinator Department of Thoracic Surgery Oncology**  
**Roswell Park Cancer Institute**  
**Elm & Carlton Streets**  
**Buffalo, NY 14263**  
**Nancy.Sikora@RoswellPark.org**
